CAREER OBJECTIVE

Motivated and enthusiastic Computer Science undergraduate seeking an entry-level opportunity in the IT industry to apply my technical knowledge, problem-solving abilities, and programming skills. Eager to contribute to organizational growth while continuously learning new technologies and developing practical skills in a professional environment.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science and Engineering	2024 – 2027
<i>DRK Institute of Science and Technology, Hyderabad, India</i>	CGPA: 7.5/10
Diploma – Computer science and Engineering	[Year]
<i>Government Polytechnic for Women, Suryapet</i>	CGPA: 8.79/10
Secondary School Certificate (SSC)	[Year]
<i>KGBV, Gudur</i>	CGPA: 10/10

TECHNICAL SKILLS

Programming	Python
AI / ML	Artificial Intelligence, Machine Learning
Web Technologies	HTML, CSS, JavaScript

PROJECTS

Fraud Detection using Machine Learning

- Developed a machine learning-based system to identify fraudulent transactions from transaction data.
- Applied data preprocessing and machine learning techniques for transaction classification.
- The system helps identify suspicious transactions and can support financial organizations in reducing fraud-related risks.

Resume Builder with Resume Score

- Developed a web-based resume builder that allows users to create professional resumes by entering their personal, educational, technical, and career information.
- Implemented a resume scoring feature that analyzes the entered resume information and provides a score based on important resume criteria.

INTERNSHIP

Python Programming Intern	June 4th to July 4th
<i>Kodbud</i>	

- Completed a Python Programming Internship with practical exposure to Python programming and problem-solving.
- Worked on programming tasks and applied Python concepts to develop programming-based solutions.
- Strengthened understanding of Python programming fundamentals through practical assignments and project work.
